

# Downlight

## Features:

- Our Halonix-NVC Down Light is range is quite large and includes 7 ranges of downlight. These ranges are as follows: Fixed, Adjustable, Wallwasher, Glareproof, Waterproof, Decorative and under cabinet range.
- The main materials used in the construction of our downlights are high quality steel, zinc alloy, aluminum alloy and pure aluminum.
- Customers also have a variety of colors to choose from. The finish is either powder coated or plated, and this high quality finish has a longer lasting time period.

## Application:

- Suitable for both commercial place and residential place. Example are jewellery shops, Show rooms, fashion and clothing shops, barber shops, supermarkets, hotels, recreation centers, bars, residences, etc.
