Wire Adjuster

Canopy

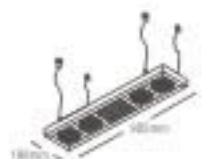

Halonix-NVC Suspension Multiple light series were designed skillfully, and show very nice looking. The Aluminum frame is assembled smartly, no visible screw on the outer surface. The gear box is combined with the fitting naturally silver grey painting is very suitable for commercial places.

Various lamp are designed in this series, say, QR111, MR16, GU10, G12, Rx7s, PAR30-L, PAR30, T8, CFL, etc.

The wire adjuster can adjust the length of the suspension wire. Push the beak, then the wire can be pull out or push in. The max. Length of the wire is 1.2M.

Every unit equipped a canopy for input wire connection.
