

Underwater Lights

- High protection degree (IP68), maintenance cost saving
- CCC approved, confirming to related industrial standards, safe and reliable
- Abundant choices of products, catering different lighting demands

NS001-B

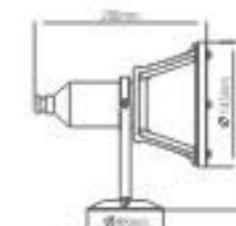

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
Stainless steel housing, beautiful and graceful
Heat-resisting silicon seal
High-temperature durable toughened glass
- **Characteristics:**
With remote transformer
Lamp: MR16 12V/50W/G5.3
Quantity/CTN(pcs): 4
CTN Dimension: 230x230x205mm

NS003-B

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
Stainless steel housing, beautiful and graceful
Heat-resisting silicon seal
High-temperature durable toughened glass
- **Characteristics:**
With remote transformer
Lamp: PAR38 12V/80W/E27
Quantity/CTN(pcs): 2
CTN Dimension: 330x260x170mm

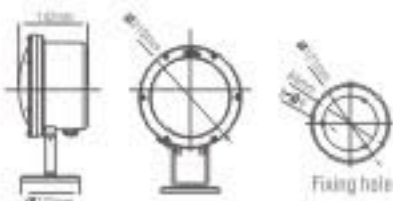

NS004-B

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
Stainless steel housing, beautiful and graceful
Heat-resisting silicon seal
High-temperature durable toughened glass
- **Characteristics:**
With remote transformer
Lamp: PAR56 12V/300W
Quantity/CTN(pcs): 2
CTN Dimension: 480x280x160mm

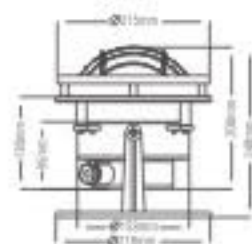

Warning: To guarantee safety, low-voltage lamp required, and the transformer must be kept away from water; contact us when the water depth is over 1.5m; keep the fitting down in the water.

NS005-B

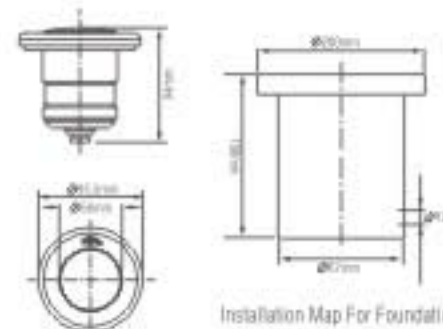

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
Stainless steel cast housing, beautiful and graceful
Heat-resisting silicon seal
Highly strengthened engineering plastic light barrier, glare-proof
- **Characteristics:**
With remote transformer
Lamp: PAR56 12V/300W
Quantity/CTN(pcs): 1
CTN Dimension: 240x240x245mm

NS009-C

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
High-quality copper housing, chrome-plated finish
Heat - resistant silicon seal
High - temperature durable toughened glass
- **Characteristics:**
With remote transformer
Plastic embedding foundation, easy for installation
Lamp: MR16 12V/50W/G5.3
Quantity/CTN(pcs): 12
CTN Dimension: 320x250x220mm

NS010-P

- **Applications:**
Suitable for aquarium, pool sculpture, fountain in plaza and other under water lighting
- **Materials:**
Highly strengthened engineering plastic housing
High-purity aluminium oxidized reflector
Heat-resistant silicon seal
High - temperature durable toughened glass
- **Characteristics:**
With remote transformer
Lamp: halogen capsule 12V/50W/G5.3
Quantity/CTN(pcs): 16
CTN Dimension: 340x170x270mm

Warning: To guarantee safety, low-voltage lamp required, and the transformer must be kept away from water; contact us when the water depth is over 1.5m; keep the fitting down in the water.
