Equipped for **Airport** functioning

Analysing how advanced equipment and solutions are facilitating efficient airport construction and operations.

P6820C ABG paver – the latest entrant in Volvo CE's asphalt pavers

The P6820C ABG paver is the latest in a line of Volvo tracked pavers that are built for power and precision. This paver can pave widths of 2.5 metres up to 9 metres. It is powered by a 142 kW-rated COM 3A/EPA Tier 3 diesel engine, which has relatively low fuel consumption.

Volvo's industry-leading Electronic Pavement Management II technology is built into the paver's main control unit (MCU), which gives operators total control at their fingertips – allowing instant adjustment to all paving functions. This is ideal for paving precisely on curves and delivering sharp edges on straight stretches.

On the machine is also Volvo's Variomatic screed, which efficiently delivers quick and consistent heat across the full length of the screed through a three-zone heating system.

Schwing Stetter's end-to-end concrete solutions

Concreting equipment manufacturing giant Schwing Stetter has always stayed in its toes, to meet the massive demands of every growing industry. This rapidly growing aviation industry demands novel, varied and complex concrete solutions and the same is being delivered by Schwing Stetter India because of its consistent focus on research and developments in innovating concrete solutions.

Schwing Stetter's high capacity batching plants like H6N (240 cu.m./hr.), H4N (140 cu.m./hr.), H3N (120

cu.m./hr.), H2.25N (100 cu.m./hr.), Mobile plants M2(93 cu.m./hr.), M1.25 (56 cu.m./hr.) etc. are employed to suit the heavy concrete demand arising in these industries for the construction of runways, aprons, hangers, control towers etc. The company's truck mounted concrete boom pumps of S 36X and S 43SX, Separate Boom Placers SPB 32 and 35, high capacity concrete pumps SP 3000, SP 3500, SP 4507, SP 4800 and SP 8800 have considerably eased the challenges encountered in these projects. GOMACO paver helps in paving runways and aprons using GOMACO GHP 2800. It uses state-of-the-art technology of 3D stringless guidance for slipforming an airport apron.

Schwing Stetter's concrete equipment at the making of Bengaluru Airport

HALONIX

The Right Light

MAKEOVER

FOR EVERY SPACE

Halonix provides total lighting solution. Our focus is not only on innovation, aesthetic & quality aspect but also on the efficiency and comfort in the living environment. We innovate product line while thinking parallelly about its application and believe in providing implacable support.

Our Products

- Widest range of energy efficient products
- BIS approved
- High luminous efficacy
- Environment friendly

Our Support System

- Professional Design Advisor
- Responsive supply chain
- Excellent after sales service
- Aesthetic look with ergonomic aspect

Halonix Technologies Pvt. Ltd.
 B-31, Phase-II, Noida, Dist. Gautam Budh Nagar, (U.P.), Pin Code - 201305.

Halonix unveils new range of LED floodlight

Adding yet another feather to its LED product portfolio, Halonix Technologies Pvt Ltd, one of the country's most progressive and environment-friendly lighting companies, has launched its new range of aesthetically innovative designed LED floodlight made of extruded aluminium heat sink, PDC housing, UV stabilised toughened glass with secondary optics complies with separate control gear IP66 compartment for better heat management to minimise the lumen depreciation that offers stable and consistent performance over lifetime.

Its corrosion resistant, impact proof integral design caters a very wide range from 200W-500W with secondary optics which allows the achievement of high luminous performance with good symmetrical and asymmetrical lighting solution so its versatile lighting solution addresses different lighting requirement like open area flood lighting, sports lighting, industrial periphery lighting, border lighting, high mast, parking, public spaces etc.

With one of the widest range of products across LED, luminaries, home lighting, commercial and industrial lighting, street lighting, flood lighting, halogens and high intensity discharge lamps among others, Halonix is one of the largest players in the LED lighting segment in the country.

About Halonix Technologies Pvt Ltd

Halonix Technologies Pvt Ltd is amongst India's fastest growing retail and institutional lighting company. Set up over 2 decades ago as an Indo-Japanese joint venture, Halonix has made the successful

Grey Floodlight

transition from being a largely private label business to a profitable branded business. The success of Halonix has been built on the back of its unparalleled ability to develop, test and deploy lighting solutions relevant and suitable for Indian conditions. Committed to deliver highest quality products to the customers, brand Halonix is first to get prestigious BIS certification for its spectacular range of LED street lights. It has state-of-the-art manufacturing facilities and it has been accredited with ISO 9001, ISO 14001, and OHSAS 18001 certification. Moreover, it has a dedicated R&D team with fully equipped NABL accredited laboratory that tests and develops products tailor-made for India. 🛠️

Possible Machines

Our Engineering Your Comfort

ISO 9001:2008

Possible Machines
the pioneering Manufacturer
and supplier firm that has
been providing excellent grade
Construction and
Brick Making Machine

Manufacturers of
Fly Ash Brick Making Machines,
Paver Block Making Machines,
Customized Special Purpose
Machines, AAC Plant Machinery
and
CLC Plant Machinery

Plot No. L-27, Midc, Ambad Nashik
- 422010, Maharashtra, India
