ABOUT US

Halonix is amongst India's fastest growing residential and institutional lighting companies. Halonix has brought novel lighting solutions that address the needs and aspirations of Indian consumers. The success of Halonix lies in its unparalleled ability to design, develop, and manufacture products that are relevant to Indian conditions. Thanks to its focus on innovation, state-of-the-art technology and quality control, the brand is widely accepted across India by consumers and trade alike. Halonix entered the fans category in 2019 and has delivered the same unique consumer values through its products in the category by combining innovative technology and user-centric design.

Halonix has State-of-the-Art manufacturing facilities and has been accredited with ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 certification. It has dedicated R&D and Design teams, an in-house NABL accredited, fully equipped state-of-the-art laboratory situated at the plant which enables Halonix to design and develop products tailor-made for the Indian consumers.

INVERTER TABLE FAN

In the height of summer when the mercury is soaring and there is a power-cut, the heat can become unbearable. This discomfort faced by our consumers propelled us to come up with our unique offering of Inverter Fans. With a back-up of 10 hours, our Inverter Fans can help you feel comfortable even during really long power cuts. The batteries get recharged when the power comes back on thereby ensuring that the fan will be ready to provide you with relief during the next power-cut.

Key Features

- Aerodynamically balanced blades
- High speed 2000 RPM
- Sturdy and shockproof body
- Copper wire motor
- Synchronous motor for jerk free and smooth operation

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	95	2000	95	Bianco

HELION PLUS

PEDESTAL FAN

Aerodynamically
Balanced Blades

High Air
Delivery

Sturdy and
Shockproof Body

Copper Wire
Motor

Pivot Arrangement
for Tilting and
Operation

TURBON - FARRATA

PEDESTAL FAN

Powerful Motor
Design

Excellent Performance
at Low Voltage

High Air
Velocity

Dynamically Balanced
Blades for Smooth
Operation

Copper Wire Motor and
Powder Coated for
Longer Life

*ALSO AVAILABLE WITH OSCILLATION OPTION

Halonix Helion Plus Pedestal Fans come with TOP (Thermal Overload Protector) technology, which will save the motor by breaking the circuit if the motor reaches near to burning temperature and will start again once the motor has cooled down.

Key Features

- Aerodynamically balanced blades
- High air delivery
- Sturdy and shockproof body
- Copper wire motor
- Pivot arrangement for tilting and operation

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	55	1400	75	White

Halonix Turbon - Farrata comes with a high air delivery motor design which ensures an optimum performance even at a low AC voltage in case of voltage fluctuations.

Key Features

- Powerful motor design
- Excellent performance at low Voltage
- High air velocity
- Dynamically balanced blades for smooth operation
- Copper wire motor and powder coated for longer life

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
500	230 V	150	1400	110	Grey

TURBON HD
PEDESTAL FAN

AIR CIRCULATOR

- Powerful Motor Design
- Dynamically Balanced Blades for Smooth Operation
- Excellent Performance at Low Voltage
- Copper Wire Motor and Powder Coated for Longer Life
- High Air Velocity

*ALSO AVAILABLE WITH OSCILLATION OPTION

Halonix Turbon HD Pedestal Fans come with a high air delivery motor design which ensures an optimum performance even at low AC voltage in case of voltage fluctuations.

- Key Features
- Powerful motor design
 - Excellent performance at low Voltage
 - High air velocity
 - Dynamically balanced blades for smooth operation
 - Copper wire motor and powder coated for longer life

TECHNICAL SPECIFICATIONS					
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
450	230 V	100	1400	9000	Grey / Green
600	230 V	200	1400	16200	
750	230 V	250	1400	23000	

BULLET
PEDESTAL FAN

- Powerful Motor Design
- Dynamically Balanced Blades for Smooth Operation
- Excellent Performance at Low Voltage
- Copper Wire Motor and Powder Coated for Longer Life
- High Air Velocity

Halonix Bullet Pedestal Fans come with high speed motor for high air delivery and ensure an optimum performance even at low voltage. Also, comes with speed regulation option and deliver smooth oscillation through a separate servo motor.

- Key Features
- Powerful motor design
 - Excellent performance at low Voltage
 - High air velocity
 - Dynamically balanced blades for smooth operation
 - Copper wire motor and powder coated for longer life

TECHNICAL SPECIFICATIONS					
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	120	2000	90	Black, Orange

Note: product is subject to change and tolerance will be ± 10 %

WALL FAN

-  Aerodynamically Balanced Blades
-  High Air Delivery
-  Sturdy and Shockproof Body

-  Copper Wire Motor
-  Synchronous Motor for Jerk Free and Smooth Operation

Helion Plus HS Wall Fans come with TOP (Thermal Overload Protector) technology, which will save the motor by breaking the circuit if the motor reaches near to burning temperature and will start again once the motor has cooled down.

Key Features

- Aerodynamically balanced blades
- High speed 2000 RPM
- Sturdy and shockproof body
- Copper wire motor
- Synchronous motor for jerk free and smooth operation

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	95	2000	95	Bianco
300	230 V	75	2000	75	

HELION PLUS

WALL FAN

Aerodynamically
Balanced Blades

High Air
Delivery

Sturdy and
Shockproof Body

Copper Wire
Motor

Pivot Arrangement
for Tilting and
Operation

Halonix Helion Plus Wall Fans come with TOP (Thermal Overload Protector) technology, which will save the motor by breaking the circuit if the motor reaches near to burning temperature and will start again once the motor has cooled down.

Key Features

- Aerodynamically balanced blades
- High air delivery
- Sturdy and shockproof body
- Copper wire motor
- Pivot arrangement for tilting and operation

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	55	1400	75	White

TURBON HD

TURBO BLDC
WALL FAN

AIR CIRCULATOR

Powerful Motor
Design

Excellent Performance
at Low Voltage

Energy Efficient

ENERGY EFFICIENT
BLDC
TECHNOLOGY

High Air
Velocity

Halonix Turbo BLDC is an Energy Efficient Air Circulator Fan comes with high air delivery motor design which ensures an optimum performance even at low AC voltage in case of voltage fluctuations.

Key Features

- Energy Efficient, 50% Energy Saving
- Low Maintenance
- Excellent Performance At Low Voltage
- High Air Velocity
- Powerful Motor Design

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
600	230 V	110	1400	16200	Black

KRYPTON

CABIN FAN

Copper Wire
Motor

Rotating Grill

Aerodynamically
Balanced Blades

High Air
Delivery

Sturdy and
Shockproof Body

Halonix Krypton Cabin Fan comes with rotating grill for automatic air rotation to cover a large area and helps you for your specific requirements of air in places like kitchen, washroom, cabin, balcony and small office spaces. It comes with Aerodynamic Blades and Shockproof Body.

Key Features

- Aerodynamically balanced blades
- High air delivery
- Sturdy and shockproof body
- Copper wire motor
- Rotating grill

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
300	230 V	85	2000	65	White

TYPHOON

WALL FAN

INDUSTRIAL PURPOSE

Powerful Motor Design

Excellent Performance at Low Voltage

Energy Efficient

High Air Velocity

Halonix Typhoon Metal Blade industrial fan comes with high air delivery motor design which ensures an optimum performance even at low AC voltage in case of voltage fluctuations.

Key Features

- Aerodynamically Metal balanced blades
- All Metal Housing
- Excellent Performance At Low Voltage
- High Air Velocity
- Powerful Motor Design

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
450	230 V	98	1350	100	Metal

PLUTO

ALL PURPOSE CABIN FAN

BLDC TECHNOLOGY

Speed 2200 RPM

Aerodynamically Balanced Blades

Powder Coated Metallic Finish

Noiseless Operation

High Durability

Powerful Motor

Halonix Pluto All-Purpose Cabin Fan comes with powder coated Metallic body with PVC blades to cover a large area and helps for your specific requirements of air in places like kitchen, washroom, cabin, balcony and small office spaces.

Key Features

- Aerodynamically balanced blades
- Speed 2200 RPM
- Powder coated Metallic Finish
- High durability
- Noiseless operation
- Powerful motor

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
300	230V	30	2200	1600	White
300	230V	85	2200	1600	

Note: *28W is in BLDC Technology
*Also available in Metal blade & canopy
*Also available in Induction motor in PVC Blade

FLOURON EX

ALL PURPOSE FAN

Powerful Motor Design

Dynamically Balanced Blades for Smooth Operation

Excellent Performance at Low Voltage

High Air Velocity

Copper Wire Motor and Powder Coated for Longer Life

Key Features

- Powerful motor design
- Excellent performance at low Voltage
- High air velocity
- Dynamically balanced blades for smooth operation
- Copper wire motor and powder coated for longer life

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
300	230 V	10	1900	16	Grey

Halonix Flouron EX Personal Fans are designed for multiple needs of your day to day life. Halonix Flouron EX Fan can be used as Floor-Table-Wall fan with different choice of speeds for your different requirements.

HALONIX

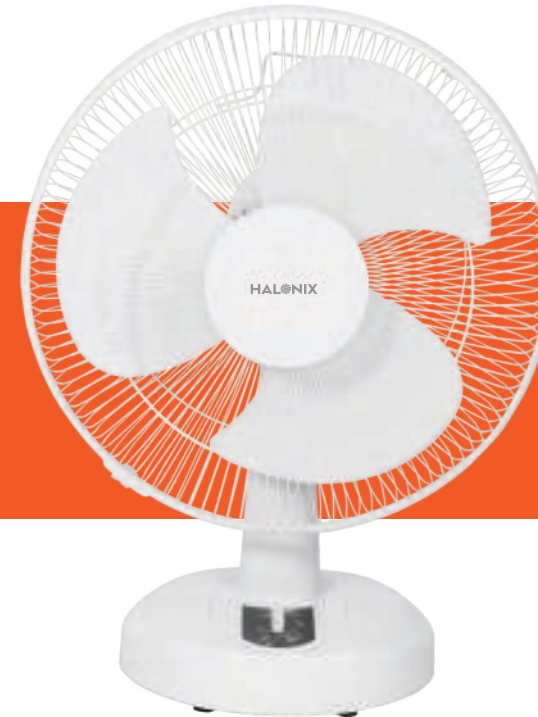

TABLE FAN

HELION PLUS HS

TABLE FAN

Helion Plus HS Table Fan come with TOP (Thermal Overload Protector) technology, which will save the motor by breaking the circuit if the motor reaches near to burning temperature and will start again once the motor has cooled down.

Key Features

- Aerodynamically balanced blades
- High speed 2000 RPM
- Sturdy and shockproof body
- Copper wire motor
- Synchronous motor for jerk free and smooth operation

TECHNICAL SPECIFICATIONS					
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	95	2000	95	Bianco

HELION PLUS

TABLE FAN

Aerodynamically
Balanced Blades

High Air
Delivery

Sturdy and
Shockproof Body

Copper Wire
Motor

Pivot Arrangement
for Tilting and
Operation

Key Features

- Aerodynamically balanced blades
- High air delivery
- Sturdy and shockproof body
- Copper wire motor
- Pivot arrangement for tilting and operation

TECHNICAL SPECIFICATIONS					
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMM)	Colors
400	230 V	55	1400	75	White & Blue

EXHAUST FAN

KRYPTON HS EXHAUST FAN

High Speed Air Ventilation

Specially Designed Metal Blades

Powder Coated Metallic Finish

High Durability

Halonix Krypton HS Exhaust Fans have a robust construction and are designed for high speed ventilation with bird guard to protect the fans in running operation.

Key Features

- High speed air ventilation
- Specially designed metal blades
- Powder coated metallic finish
- High durability

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
150	230 V	60	2400	400	Metallic Grey
230	230 V	65	2400	1050	Metallic Grey
300	230 V	95	2400	1600	Metallic Grey

KRYPTON

EXHAUST FAN

High Speed Air Ventilation

Specially Designed Metal Blades

Powder Coated Metallic Finish

High Durability

Halonix Krypton Exhaust Fans have a robust construction and ensure high durability with bird guard to protect the fan in running condition.

Key Features

- High speed air ventilation
- Specially designed metal blades
- Powder coated metallic finish
- High durability

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
230	230 V	40	1400	750	Metallic Grey
300	230 V	50	1400	1050	

KRYPTON DBB

EXHAUST FAN

Noiseless Operation

High speed Air Ventilation

Powder Coated Metallic Finish

Double Ball Bearing

High Durability

Key Features

- Noiseless operation
- High speed air ventilation
- Powder coated metallic finish blades
- Double ball bearing
- High durability

TECHNICAL SPECIFICATIONS

Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
230	230 V	45	1400	750	Metallic Grey
300	230 V	70	1400	1600	

Halonix Krypton DBB Exhaust Fans are low on maintenance and high on efficiency. Equipped with an automatic shutter for dust and bug protection, the fans ensure not just optimum performance but also silent operation.

KRYPTON HDEF

EXHAUST FAN

High Speed Air Ventilation

Specially Designed Metal Blades

Powder Coated Metallic Finish

High Durability

TECHNICAL SPECIFICATIONS						
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors	
300	230 V	55	900	1145	Metallic Grey	
380	230 V	100	900	2000		
450	230 V	145	900	3900		
380	230 V	160	1400	3250		
450	230 V	410	1400	6120		

Halonix Krypton Heavy Duty Exhaust Fans have a robust construction and ensure high durability with bird guard to protect the fan in running condition.

- Key Features
- High speed air ventilation
 - Specially designed metal blades
 - Powder coated metallic finish
 - High durability

HELION DX

VENTILATION FAN

Smooth Operation of Auto Shutter

High Quality Engineering Plastic

Anti-Static Properties

Silent Operation

Light & Dust Proof Body for Durability

Halonix Helion DX Ventilator Fans are low on maintenance and high on efficiency. Equipped with an automatic shutter for dust and bug protection, the fans ensure not just optimum performance but also silent operations.

- Key Features
- Automatic shutter for dust protection
 - High quality engineering plastic
 - Anti-static properties
 - Silent operation
 - Light & dust proof body for durability

TECHNICAL SPECIFICATIONS						
Sweep (mm)	Voltage	Power Input (Wattage)	Speed (RPM)	Air Delivery (CMH)	Colors
